

11th International Conference on Agile Software Development

Call for submission: XP2010 Trondheim, Norway, June 1-4

The 11th International Conference on Agile Software Development, XP2010, is a leading international conference on agile methods in software and information systems development. XP2010 will be hosted by the SINTEF research foundation in Trondheim, Norway. The conference brings together both industrial practitioners and researchers in the fields of information systems and software development, and examines latest theory, practical applications, and implications of agile methods.

We encourage submissions of research papers, short research papers, workshops, experience reports, lightning talks, posters, tutorials, and PhD symposium papers. The topics of interest in the conference include, but are not restricted to, the following:

- Adoption and diffusion of agile methods
- Empirical studies and experiences of agile methods
- Tools and techniques for agile development
- Social and human aspects of agile methods
- Management and governance aspects of agile methods
- Implications of agile methods for industrial practice
- Foundations and conceptual studies of agile methods
- Implications of agile methods for research and education
- Organizational agility

The XP2010 conference proceedings will be published in Springer Lecture Notes in Business Information Processing (LNBIP). Best papers will be invited to submit an extended version to a special section of the Journal of Information and Software Technology. In addition, IEEE Software's Selection Award will be chosen among the best research and industry papers (a one page summary/news item will be printed in the magazine).

IMPORTANT DEADLINES

| | |
|---------------|--|
| Dec 6th 2009 | Research papers, short research papers, experience reports |
| Dec 13th 2009 | Lightning talks |
| Jan 7th 2010 | Workshops, tutorials, posters and PhD symposium |

Early registration deadline: March 24th 2010
